UNIVERSITY  
Extension Service

## Map on Back

## Do you need to dispose of old pesticides?

- Take advantage of this opportunity to **safely and anonymously** dispose of old and unusable pesticides.
- This collection event is for **agriculture waste pesticides** in Malheur County.
- **You must pre-register** with the disposal service so they are prepared to receive your chemicals. To get an application, contact Clean Harbors or Malheur County Extension. Complete and send application by mail, fax or e-mail to Clean Harbors Environmental. If you have containers **larger than 5 gallons**, you must register by October 8. Smaller containers may be registered through October 20. There will be a **500lb** limit per registrant.

### To Download Registration Forms:

<http://extension.oregonstate.edu/malheur>  
or call Clean Harbors Environmental Services 503-953-6397

### Submit registration forms or questions to:

Graham Gadzia: Clean Harbors Environmental Services  
**Email:** [gadzia.graham@cleanharbors.com](mailto:gadzia.graham@cleanharbors.com)  
**Fax:** 253-639-4249  
**Mail:** 26328 79th Ave S  
Kent, WA 98032

### For Questions and Technical Assistance Contact:

Bill Buhrig at OSU Extension will provide confidential answers to questions or will assess whether degraded chemical stores can be safely transported.

**Call:** 541-881-1417 **Email:** [william.buhrig@oregonstate.edu](mailto:william.buhrig@oregonstate.edu)

### To Check the Status of a Pesticide:

Oregon Department of Agriculture  
**Call:** 503-986-4635 **Email:** [pestreg@oda.state.or.us](mailto:pestreg@oda.state.or.us)

## Do you have empty pesticide containers to recycle?

- **You can recycle** clean, dirt and residue free, triple-rinsed plastic containers. For triple rinse procedures, see the Ag Container Recycling Council (ACRC) website at <http://www.acrecycle.org> and select the link for Container Rinsing.
- **All size containers up to 55-gallon** capacity plastic drums can be accepted. Containers need to be made from high density polyethylene (HDPE) and embossed with recycling symbol #2.
- **No pre-registration is needed** for dropping off empty, triple-rinsed pesticide containers. There is no charge for this service. There is no limit to the number of empty containers which may be turned in.

Malheur County is an intensively managed agriculture region that has experienced a wide variety of pesticides applied and held in storage. This is an opportunity for growers to clean their storages of unwanted materials.

Old and unused pesticides can enter waterways through leaching, flooding, or runoff. Chemicals collected from this area and disposed of are removed as threats to water quality. Help protect our water, air and soil by bringing your old and unused pesticides to this collection event for proper disposal!

**Thank you for being good stewards!**
