

Cereal Variety Trial Tour

Winter and Spring Varieties of Wheat & Barley

The University of Idaho Cereals Team is offering a tour to visit winter and spring wheat and barley variety trials located north of Rupert. The tour will include the variety trials as well as discussion of the current situation with Barley Yellow Dwarf Virus and Stripe Rust. Dr. Juliet Marshall will discuss the diseases and the BMP's to deal with them. We encourage all producers, seed dealers as well as crop consultants to meet with us. (2 Pesticide Safety Credits available)

- 9:30 Meet at the Spring Site at 925 E. 700 N, Rupert
