

## Pacific Northwest 2016 IPM Workshop \*IPM Train-the-Trainer Working Group\*

**WHAT:** A 2 1/2 day short course designed to train ag professionals, crop consultants, and university extension and research faculty at all experience levels on identification, management and control of insects, diseases, and weeds as well as need-to-know pest management tactics.

*This hands-on learning experience* will include field sampling and identification of major pests in the area plus creation of a mounted insect collection and weeds preserved in plant presses for your very own, take-home, information transfer/educational display.

**WHEN:** June 27-29, 2016.

**WHERE:** University of Idaho Aberdeen Research and Extension Center  
1693 S. 200 W.  
Aberdeen, ID 83210

**DON'T MISS THIS OPPORTUNITY TO ENHANCE YOUR LEVEL OF  
EXPERTISE IN MULTIPLE DISCIPLINES!**

- Enrollment is limited to 20 individuals at each site.
- There is a charge of \$125 for the course. All handouts, most materials, equipment and supplies will be furnished.
- Webinars will be available before the class. USA experts will be presenting relevant material online.

**INSTRUCTORS:** Pamela Hutchinson, U of I Weed Specialist  
Stuart Reitz, OSU Extension  
Silvia Rondon, OSU Extension Entomologist Specialist  
Steve Van Vleet, WSU Extension Specialist
