

## Ag Tour — Thrips Control in Drip Irrigated Onions

Tour will focus on research trials aimed at understanding best management practices for thrips control in drip irrigated onions. We will discuss options for injecting insecticides through drip systems, new insecticides for both foliar and drip applications, and the role of beneficial insects in thrips control.

The University of Idaho and U.S. Department of Agriculture cooperating. Persons with disabilities who require alternative means for communication or program information or reasonable accommodations need to contact Mike Thornton at least one week prior the event at 208-722-6701, ext. 211. The University of Idaho is an equal opportunity/affirmative action employer and educational institution.
