

SUMMER TOUR

Tuesday, August 13, 2013

GEM SWCD
Emmett, Idaho

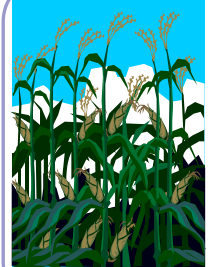

Gem Soil And Water Conservation District

Check-in at 10 AM

Gather at 3900 W. Idaho Blvd. (Shadow Butte School)

Tour from 10:30 to Noon Lunch at Noon Free to all participants

Blaine Lindley installed a linear irrigation system last year. After some intense learning, now we will examine the pros and cons of the system and in-field production. Blaine raises mint and has for several years. We will see first hand raising mint, harvesting and distilling the crop.

This year Kirk Vickery installed a drip irrigation system in Gem County for mint and corn. Learn about the innovative ways to save water, fertilizer and get the nutrients straight to the crop without waste.

This is a great opportunity to learn from a couple of Gem County's farmers. Be there to ask questions and get on the spot answers.

Plan to join us.
