

Please mark your calendar for the **2016 Snake River Weed Research Tour!**

Place: Malheur Experiment Station, 595 Onion Ave, Ontario, OR

Date: Thursday, June 9, 2016

Registration starts at 8:00am with coffee and donuts

The tour will start promptly at 9AM and end at 12:20PM.

Pesticide recertification credits will be offered for Oregon and Idaho.

A complementary lunch will be served at the conclusion of the tour.

The tour will feature research studies for weed management in direct-seeded onion, sugar beet, field corn, sweetpotato, and potato. The first stop will be at our yellow nutsedge "field laboratory" along Hwy 201 just before crossing the rail tracks (if headed north to Ontario from Nyssa). The stop along Hwy 201 will feature studies on yellow nutsedge control in onion and field corn. We will then proceed to the station and tour studies on weed control in sugar beet, sweetpotato, potato, and onion.

This event is open to the public.

Please call 541-889-2174 or email janet.jones@oregonstate.edu if you need more information.
